

Shuffleboard is a wonderful game. It brings together people from all walks of life. It furnishes a means of economical recreation along with mild exercise. From this association, many lasting friendships have emerged. Friendship is one of the outstanding facts. There is no Status Symbol; they don't care if you are wealthy, or just on a pension, whether you are a college graduate or from the fourth grade. All they ask is that you be amiable. It helps tho', to be able to add good when you have to keep score.

In the State of Florida we have almost fifty thousand members. Shuffleboard is really big.
