No other tournaments to be played on days of State Sponsored Tournaments. This rule to apply to them only.

A Shuffleboard magazine, so all players will know what is going on in other clubs and in Shuffleboard. Get the news when it is news.

Submitted by—Duke Christensen

The progress of the times will no doubt be reflected on the activities of Florida tourist recreation for the 1964-65 season.

Since the game of shuffleboard is an important and popular sports medium during the winter season it is the hope of the Florida Shuffleboard Association officials that adequate equipment and proper regulations are sufficient to make a pleasant and successful year for thousands of players that will be interested as past enthusiastic members and for the hundreds who become new recruits.

The new organization of the Association under the leadership of President Evan McKeehan will endeavor to keep the high standards of quality in the game and the interest on the same high plane as of the past and develop new interest and technique whenever possible.

FIRST VICE PRESIDENT—E. GUY COLLINGS
