

A major Tournament has many facets, the finest of which is the prospect of renewing old friendships and making new ones.

If you haven't attended a State Tournament, you have missed the warmth of meeting people who are just waiting to talk to someone! Many fine and lasting friendships have been made on the courts where people come from all over and from every walk of life. You will find that they are the most sociable people in all the world. My wife Madeline and I have been following these games for over thirty years and we are proud of our hundreds of friends all over the state.
