

The Shuffleboard Story

Here is the story of Shuffleboard in a moving picture, a year in the making, with a cast of several hundred, most of them well known!

In this picture we will take you around the State of Florida to some of the major tournaments – you will get a history of the game and its growth up to the present time. Then there is an interesting course of instruction, followed by scenes of well known players in actual play.

This picture has been produced by the Florida Shuffleboard Association and is available for showing at your club. For details, contact your District President or State Officers.
