

## THANKS TO OUR STATE OFFICERS

I think we all owe great respect and a well earned "Thank You" to all of past and present state officers who have so graciously given their time to give our game of shuffleboard the popularity it has today. Most times we have not all agreed with their ideas, which is very normal. Nevertheless I am sure they had our best interests at heart and will continue to strive for a better game of shuffleboard for all people who play in this great sport.

What better way is there for people our ages to meet friends, and a way of getting together, than to meet at our shuffleboard courts? Lasting friendships are often made in this manner.

OSCAR SHEPPARD
