

FELLOW SHUFFLERS:

With each passing year, I become more and more grateful for all the many benefits that come from my involvement in the sport of shuffleboard playing. What a grand game it is!

What joy and satisfaction it gives to so many. What a clean, happy, stimulating pastime is this game we play.

The social environment surrounding our sport is one of friendly, congenial fellowship that adds so much to our well-being and our zest for life.

It would be impossible to total up all the countless human beings who have enriched their lives, from the very first moment that they took a shuffleboard cue into their hands.

Yes, my friends, we have something very, very good here. Let us thank those who have made it all possible. Thank those who first pioneered the game and introduced it to our land. And, thank all those dedicated leaders of today, who work hard so that we all may share the pleasures of shuffleboard playing in our lives.

Whether you are a tournament player, a fun player, or just an interested spectator, thank heaven for our wonderful sport of shuffleboard. May it flourish and spread its blessings forever.

KARL VON SCHULER
